PROFESSIONAL SUMMARY

Computer Systems Technician graduate with hands-on experience building full-stack web applications, REST APIs, and computer vision pipelines using React, TypeScript, Python, FastAPI, and PostgreSQL. Dean's Honour List student with proven ability to ship production-quality software in Agile teams and integrate client feedback. Seeking junior software developer or co-op opportunities to contribute to modern, scalable products.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C#, PHP, SQL, HTML5, Machine Learning, DSA, Android, Project Management

Frameworks & Libraries: React, React Native, Node.js, FastAPI, ASP.NET, Material UI, Shadcn UI, OpenCV, Ultralytics YOLO

Tools & Platforms: Git, GitHub, Docker, REST APIs, Agile/Scrum, Poetry, Roboflow, ByteTrack, EasyOCR, Tesseract

Databases: PostgreSQL, MySQL, MongoDB, Relational Database Design, Structured JSON Storage

Concepts: Full-Stack Development, OOP, Software Testing, Responsive UI, Accessibility, Computer Vision, OCR, SEO

TECHNICAL PROJECTS

Ziefah Health - Crisis Triage & Clinician Matching Platform | *React, TypeScript, FastAPI, Python, PostgreSQL, Shadcn UI*

- Built a full-stack crisis triage and clinician-matching web app for a healthcare client, with a responsive React + TypeScript front end and a FastAPI REST API backed by PostgreSQL.
- Designed matching logic and REST endpoints to pair users with appropriate clinicians, integrating mock JSON sources to simulate clinician and patient records.
- Engineered a responsive Shadcn UI with real-time updates and WCAG accessibility (colour contrast, keyboard navigation, semantic HTML) for diverse users in crisis scenarios.
- Collaborated in an Agile team with sprint reviews, stand-ups, and Git workflows; incorporated client feedback and aligned the platform with clinical resource guidelines.

Applied Research Project - Computer Vision OCR Pipeline for Moving Train Wagons | *Python, OpenCV, YOLO, ByteTrack, EasyOCR, Tesseract, Roboflow, Poetry*

- Architected an end-to-end computer vision and OCR pipeline in Python that detects, tracks, and extracts markings from moving train wagons in video, outputting structured JSON per wagon.
- Trained an Ultralytics YOLO object detection model on a custom dataset of 1,500+ annotated images via Roboflow and integrated ByteTrack to maintain consistent wagon identities across frames.
- Built a dual-engine OCR layer (EasyOCR with Tesseract fallback) using frame quality scoring, multi-frame aggregation, and confidence-based selection to handle motion blur and variable lighting.
- Delivered a modular, Poetry-managed pipeline that finalized 138 wagons in evaluation; collaborated with a 4-person team using Git and code reviews.

EDUCATION

Mohawk College - Diploma, Computer Systems Technician (Dean's Honour List)

Sep 2023 – Apr 2025

Coursework: Java, Python, JavaScript, Web Programming, Database Theory, Software Testing, ASP.NET, C#, PHP, Project Management.

Ishraq University - Bachelor of Economics and Management

Sep 2017 – Apr 2021

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Docker Fundamentals - Understanding Containers and Images** (Coursera / Packt, 2025), Containerization fundamentals, image creation, and container lifecycle management for modern deployment workflows.
- **Advanced Docker - Data Persistence and Orchestration** (Coursera / Packt, 2025), Volumes, networks, and multi-container orchestration for production-ready backend deployment.

PROFESSIONAL EXPERIENCE

Freelance Web Developer - Nail Salon Client Website, Hamilton, ON

2025

- Designed and developed a responsive, mobile-first website for a local nail salon with service listings, galleries, and contact workflows.
- Implemented on-page SEO (semantic HTML, meta tags, alt text, fast-loading assets) to improve search visibility for local customers.
- Worked directly with the client through iterative feedback cycles to ship a production-ready site tailored to their brand.

Fortinos Canada - Pizza Department Associate, Hamilton, ON

Dec 2022 – Present

- Deliver consistent quality and customer service in a fast-paced retail environment while balancing full-time studies, demonstrating reliability, teamwork, and time management.
